CHOOSE A THEME

Exhibitions are inspired by many things. A theme is the idea that connects your artwork. It can be anything you like - color, materials, nature, a particular artist, identity, a shared goal, anything!

CHOOSE 3-5 ARTWORKS

Pick the best artworks that go with your theme. Think about how they fit together as a group. How will you arrange your works? Which piece will viewers see first? Next? Last?

EXHIBITION TIME!

Sketch your artworks in the spaces provided. Think of a title for your exhibition and add that to one of the spaces. On the back, write your curatorial statement, or a few sentences about why you chose the pieces and how they fit into your theme.
